PROFILE SUMMARY

Flutter Developer with 5 years of experience in building high-performance Android and iOS applications using Flutter and Dart. Skilled in Riverpod, Bloc, MVVM, Clean Architecture, Firebase, REST APIs, WebSocket, Google Maps, and payment integration. Delivered 15+ production-ready applications. Immediate Joiner, open to Remote, Hybrid, and On-site opportunities

SKILLS

- **Mobile Development:** Flutter, Dart, Android (Java, Kotlin), Android SDK, Jetpack Compose (Basic)
- **Architecture & State Management:** MVVM, Clean Architecture, SOLID Principles, Design Patterns, Repository Pattern, Riverpod, Bloc, Cubit, GetX
- **Backend & APIs:** REST APIs, Spring Boot (Basic), WebSocket, Socket.io, JSON Parsing
- **Firebase:** Authentication, Firestore, Cloud Messaging (FCM), Analytics, Crashlytics, Remote Config
- **Integrations:** Google Maps, Geolocation, Razorpay, Push Notifications, Deep Linking, Dynamic Links
- **Database & Storage:** Hive, SQLite, Shared Preferences
- **AI Tools:** ChatGPT, GitHub Copilot, Cursor AI
- **Tools & DevOps:** Git, GitHub, GitHub Actions, Codemagic, CI/CD, Postman, Android Studio, VS Code
- **Testing & Deployment:** Unit Testing, Widget Testing, Integration Testing, Play Store Deployment, App Store Deployment, TestFlight
- **Methodologies:** Agile, Scrum, Performance Optimization, Code Review, Debugging, Refactoring

EXPERIENCE

Quicoo

September 2025 – July 2026

Flutter Developer (Mobile App Developer)

- Developed and maintained a ride-sharing (Uber/Ola-like) customer application using Flutter (MVVM), implementing real-time ride tracking, Google Maps integration, REST APIs, push notifications, and performance optimization

Mediquity Technologies Pvt. Ltd.

June 2023 – August 2025

Flutter Developer | Software Developer

- Collaborated with a cross-functional team of 8+ developers, designers, and QA to build 15+ cross-platform apps using Flutter and MVVM, reducing delivery time by nearly one-third
- Engineered RESTful APIs with Spring Boot in coordination with the backend team, improving response time by 40%
- Integrated Firebase services (Auth, Firestore, FCM) to support 10K+ MAUs in tight collaboration with the DevOps and security teams

- Migrated 5 existing native iOS/Android app features to Flutter, achieving 95% feature parity and a 40% reduction in codebase size, while maintaining consistent user experience and performance
- Led Agile delivery across 18+ sprint cycles alongside product managers and testers, achieving a 95% on-time release rate
- Partnered with clients and internal teams to gather requirements and resolve bugs, boosting client satisfaction and repeat business by 25%

Fablo Platforms

Dec 2022 – May 2023

Flutter Developer

- Developed and maintained multiple Flutter application modules using MVVM architecture and clean coding practices
- Built 10+ production-ready UI screens with responsive layouts for Android and iOS platforms
- Integrated REST APIs and implemented state management using Provider and Riverpod
- Collaborated with backend, QA, and design teams to deliver features within sprint timelines
- Resolved 50+ bugs and performance issues, improving application stability and user experience
- Participated in code reviews and feature planning discussions to ensure scalable implementation

Satya Kabir E-Solutions Pvt. Ltd.

July 2021 – Nov 2022

Flutter Developer

- Mentored 4 junior developers through bi-weekly knowledge-sharing sessions, increasing feature delivery accuracy by 25%
- **Led integration** of Google Maps API in 3 location-based apps as part of a 6-member mobile team, increasing user engagement by 35%
- Coordinated with designers and QA to implement real-time chat via Firebase, handling 15K+ monthly messages
- Delivered 5+ collaborative app builds in eCommerce and grocery domains, improving user retention by 30%

EDUCATION

RAJIV GANDHI PROUDYOGIKI VISHWAVIDYALAYA

Bachelor of Engineering – Computer Science & Engineering - 8.19 CGPA

June 2016 - June 2020

Bhopal, Madhya Pradesh

ACHIEVEMENTS

- Successfully delivered 15+ mobile applications across healthcare, ride-sharing, astrology, e-commerce, and enterprise domains
- Maintained 95%+ crash-free rate across production applications through proactive debugging and monitoring
- Reduced application loading time and API response handling through optimized architecture and code refactoring
- Published and maintained applications on both Google Play Store and Apple App Store
- Integrated Firebase services, payment gateways, real-time chat, maps, and push notification systems across multiple projects
- Mentored junior developers and contributed to knowledge-sharing sessions, improving team productivity

PROJECTS

Quicoo – One App Does It All (Uber/Ola-like)

Role: Flutter Developer

- Developed and maintained a ride-sharing mobile application using Flutter (MVVM).
- Implemented ride booking, real-time ride tracking, Google Maps, REST API integration, push notifications, and performance optimization.
- Collaborated with backend, QA, and product teams to deliver production-ready features.

Tech Stack: Flutter, Dart, Riverpod, Google Maps, REST APIs, Firebase

AstroSane – Astrology Platform

Role: Flutter Developer

- Developed chat, voice/video consultation, Kundli, matchmaking, wallet, and booking modules.
- Integrated Firebase Authentication, Firestore, FCM, Razorpay, and secure REST APIs.
- Optimized app performance, supporting **10K+ active users** while improving user engagement.

Tech Stack: Flutter, Firebase, Razorpay, REST APIs

AstroGanga –Astrology Platform

- Developed real-time chat, voice/video calling, wallet, and in-app purchase features.
- Improved user engagement and payment experience through optimized application performance.

Tech Stack: Flutter, Firebase, Razorpay

Dhakad Protsahan Employee App

- Built field-force management features including contractor onboarding, point allocation, and real-time tracking.
- Improved operational efficiency through real-time synchronization and optimized workflows.

Tech Stack: Flutter, Firebase, REST APIs

Published Applications

- Published and maintained applications on **Google Play Store** and **Apple App Store**
- **Application links available on request**
